

## SUSTAINABLE PROCUREMENT POLICY PT AKR CORPORINDO TBK

PT AKR Corporindo Tbk. is committed to become a company that is responsible for social, environmental and good governance aspects.

As part of our efforts to provide best quality service to customers, it is crucial for the Company to cooperate with reliable providers and working partners. Therefore, the Company is committed as follows:

1. Provide equal opportunities to suppliers/providers of goods and services as well as working partners who have passed the selection, using transparent, objective, procedures and avoiding conflict of interest.
2. Prioritize suppliers who can provide products and services of good quality, price, terms and services including after sales and warranty.
3. Assess goods and service providers and working partners regarding their commitment and compliance with statutory regulations.
4. Decision making is not influenced by personal interest.
5. Carry out open and constructive communication during the procurement process until the rights and obligations of the parties are fulfilled.
6. Carry out continuous evaluations and make improvements, as well as take firm action against goods and services provider and working partners who behave unethically.

PT AKR Corporindo Tbk. also expects the goods and service providers also working partners to:

1. Respect the rights and obligations in accordance with the engagement agreement and statutory provisions.
2. Offer products and services with the best quality standards and competitive price.
3. Guarantee safe working environment, the fulfillment of workers' human rights, no discriminatory practices, no forced labor and child employment, and strive to fulfill all provisions in accordance with statutory regulations.
4. Respect the principles of sustainability and the environment, including using natural resources responsibly and economically.

This policy must be communicated, implemented, and complied by all AKR Group Personnel, Goods and Service Providers, and Working Partners without exception.
